PROFILE

A Passionate, open-minded and self-driven Software Developer with three years of experience in creating innovative and responsive websites and systems, consistently achieving 99% client satisfaction.

SKILLS

- Web Developer
- Design Thinking
- Responsive Design
- Testing and Debugging
- Computer Literacy
- Systems Development
- Problem Solving
- Critical Thinking
- Project Analysis
- Prompt Engineer

EDUCATION

Bachelor of Computer Technology
(2022 - Present)

Jomo Kenyatta University of
Agriculture and Technology (JKUAT)

High School (2018 -2021)

Molo Academy

Boys, Molo Grade: B-

Primary School (2009 - 2017)

Bran-Den Junior School,
Naivasha KCPE:

374 Marks

Professional Qualifications

Full Stack Developer

(2022) eMobilis Training
Institute I got a certificate
to prove that I am a full
stack web developer

1st Level CCNA Online

Training Cisco Networking
Academy

Full Stack Web Development

Udemy

EXPERIENCE

Full-Stack Developer

Freelance / Personal Projects (2022 - Present)

Technical Support & Networking

Deylin Ultimate Springs (May 2023 - Aug 2023)

- Provided IT support and troubleshooting for internal systems, ensuring seamless operations.
- Assisted in network setup and management utilizing CCNA expertise.
- Maintained and optimized the company's hardware and software infrastructure.

Attachment — eMobilis Technical Institute

June 2025 – August 2025

During my Degree Industrial Attachment at **eMobilis Technical Institute**, I had the opportunity to work as a **Junior Lecturer** under supervision, where I assisted students in understanding web and mobile development concepts. I also supported the institution's **technical support team**, helping maintain the smooth operations of development environments and assisting in troubleshooting both software and hardware issues.

While at eMobilis, I also attended the “**AI for Software Developers**” class, where I learned to integrate **AI APIs** (such as OpenAI, Gemini, and others) into real-world applications. This is also where I developed strong **prompt engineering** skills, which have since enhanced how I design and build intelligent, AI-assisted solutions.

INTERESTS

- Gaming
- Researching on the internet
- Swimming
- Socialising
